# WOR(L)DS
# FOɼ THɛ FUTURƎ

Wor(l)ds for the Future is republished in a collaboration between Nienke Scholts (curator and editor of the original publication Words for the Future) and the tutors and students of the MA programme XPUB (Experimental Publishing).

*"The map of reality is not reality, since the description of the thing is not the thing itself. It's all about interpretation: symbols, parameters, grids. With the lack of interpretation comes the space for the individual abstraction. The abstraction, together with the enforcement of new values and parameters, create new landscapes and possibilities for the future."*
