

Soc.women is an unmoderated Usenet Newsgroup to discuss social issues from a female perspective.

Topics include gender rights, child support, custody of children, relationships and more. It is specifically created to discuss issues related to women, their problems and relationships.

Consider:

being a woman in this group. Posts of men exceedingly outnumber those of women. In a count of 292 responses, 13% were women, 78% were men and 9% were undeterminable.

What would you do?

A Usenet newsgroup is a repository usually within the Usenet system, for messages posted from many users in different locations using the Internet.
